A short one this month. I'm concentrating on the Festival, and most of you are concentrating on picking up your mileage for the Festival!

Thanks to those who submitted material. Tootie Richey has an interesting travelogue on page 6.

I am doing too many jobs with the club right now. Doing this newsletter is one that many of you have the capability of doing if you want to invest some time in making the GCC an even greater club. We would like someone who does nothing else but the newsletter (besides riding their bike!). Phone or drop me an email if this interests you.

# President's Letter

The last of the overly oppressive hot days seem to be behind us, we now enter into what most people consider the best cycling time of the year.

For many people the highlight of their cycling calendar is the Gainesville Cycling Festival which is just around the corner. Both the Santa Fe Century and the Horse Farm Hundred (or parts thereof) can be ridden by most demanding cyclist or the more casual one. If we all obey not only cycling laws but use common sense and courtesy this and all of our rides will be much safer. I would like to ask all riders to be aware of Florida cycling laws (which can be found on the club's web site under the "Club Information" menu on the left hand side of the screen) and strictly abide by them.

Especially with the large groups that will be on the road it is easy to stray too far from the right side of the road or bike lane and cause an inadvertent clash with a motorist or another cyclist. Remember, helmets are mandatory and mirrors recommended on all GCC rides. Let's strive to make this Festival the safest as well as the most enjoyable one on record.

I would like to thank everyone who has volunteered so far to help with this years Cycling Festival. This event has grown into one of the major rides on the Florida Cycling Calendar. Such an undertaking would not be possible without your support. We still can use help and those of you that may wish to volunteer can do so by contacting Roger Pierce at 378-7063. Before calling, check out what is needed on the GCC web site (<http://gccfla.org/>). Your additional support can help fill out the numerous positions needed for the festival.

I hope to see you on the road...

*Bob Newman* 

## Gainesville Cycling Festival Report

Roger Pierce

We got off to a slow start this year with our organizing. The economy has resulted in a lot of changes to sponsorships at the Santa Fe Century, which delayed getting the brochure in the mail. As you get this, there are less than THREE weeks left to get everything ready to go!

Several of the volunteers who filled key positions last year are not available to help in 2008. We will be calling around looking for replacements; please help if you can, and call me (378-7063) if you can volunteer.

We are, of course, expecting outstanding fall weather, we will have lots of good snacks and food at the rest stops, and there are a number of recently repaved roads to make your ride smoother.

Don't forget to mail in your registration soon; the special t-shirt deadline is only a week away! As a club member, you can order long-sleeve and tank top shirts (options not

available to the general public).

If you have a question about whether you are signed up as a volunteer, sign in to the Members Area and look in the Volunteer box. If you have been signed up, your position(s) will be listed in the box.

Volunteers will receive emails

providing them with details about when and where we expect to see them. These should start going out this weekend.

At the Santa Fe Century, we are welcoming Adam's Rib as a lunch provider, joining Beef O' Brady's.

# Five Points of Life Ride is Coming

by Gary Kirkland

The Five Points of Life Ride is coming to Gainesville, and the team of riders would welcome company on the road for the final leg of the journey of more than 2,000 miles.

The ride promotes five types of lifesaving donation - blood, apheresis, marrow, organ/tissue and cord blood - and the team of 12 riders all have a personal connection to one or more of these ways to give. The team includes four members of the Gainesville Cycling Club: Perry McGriff, Bruce Stechmiller, Skip Choate, and Tracy Walker.

The ride, that's coordinated by LifeSouth Community Blood Centers, will follow a route through six Southeastern states. It will travel from St. Augustine to Gainesville Oct. 28.

The following day there will be an early-morning event in Gainesville, and then the group will gather and depart about mid-morning for the finish line in Cedar Key. Riders from the Gainesville Cycling Club are welcome to join in this final ride and for the festivities at the completion of the

journey.

The exact time and location where the group will gather for departure have not yet been set. If you are interested in joining the group for this final day on the road, contact Brite Whitaker at LifeSouth at [bbwhitaker@lifesouth.org](mailto:bbwhitaker@lifesouth.org) for additional details.

# Social Security, Nutella, and Gearing Down

by Tootie Richey

Last year, Hanna Carroll said when you start drawing Social Security (early of course) lets plan a bike trip. GREAT! Then she said her sister Eva Sorge wanted to ride the Mur Trail, so I wondered where that was and said, OK. I was thinking John Muir Trail, West coast.

Suzanne Hall and Melinda Koken wanted to go, so the planning began. Well, I must confess I did not do any planning as I barely knew where AUSTRIA was and had no idea where the Mur River trail was in Austria. Hanna said it is a river so it has to be downhill, 250 miles or 400km! So I became joined at the hip with the Internet.

I took a non-credit, Adult Education German course and flunked. Melinda audited a German class at UF and actually learned. I suppose the difference was she has German roots and this gave her the ability to get guttural with the language. I intended to take my instructors advise and hope some one around me could speak English should I get lost from our flock. Which I did and They did.

I learned that Nutella is big in Austria and indeed the Mur River goes downhill. I love Nutella and love riding downhill, so June 10 we left for Munich or Muenchen, Germany. We chose not to take our touring bikes as toting them around would make climbing stairs, leaping from steps to train platforms, and charging up flights of stairs at our hostels difficult. This was a good choice.

We started from St. Michael in

Lungau, Styria and ended at Bad Radkurg, Styria. We rented our interesting bikes from, Bacher Rad-Reisen: [office@bachr-reisen.com](mailto:office@bachr-reisen.com). Now, it is important to clarify which St. Michael one wants to go to as it is common for a town to have more than one location. As Melinda found out at the end of her trip.

Our trip was self-guided and we carried our clothes in our panniers but we stayed at hostels (Hostelling International) and Pensions. So we traveled light and on the cheap! I can not say enough good things about all of the places we stayed at: cheap, clean, polite staff, good breakfasts. As you know the dollar has been also going downhill against the Euro. A hotel could have been 120 Euros where a hostel was 20 Euro.

Hanna and Eva were our reluctant leaders (as they spoke the language) and I am sure they got very tired of hearing "What does that say?" and perhaps a few other things!! The riding experience of our rental bikes was sort of like riding the waves in a kayak. First the wave passed from front wheel to handle bar down the deeply dipped top tube to the back wheel. While the shimmy was unnerving to me, it was not uncomfortable. They had a triple chainring that was fine, as was the seat. Melinda took her seat and that worked for her.

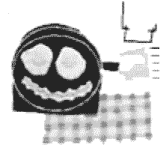

Type in Dutch Bike Velorbis Victoria Classic to get an idea of the frame. We must have seen a million bikes and thousands of bike trails. I suggest you order the trail map

(only available in German). It is very clear and the path is well marked. Most of the trail is paved but skinny tires may not be best. We learned the bike trail is not all downhill.

Now for Nutella, it was everywhere, big bowls, individual packets, etc. I don't think I had a bad meal, snack or a rude encounter. I knew I was not in America. Since we only rode 8 days and the longest day 43 miles or 70km., the weather was only bad about 3 days, we spent 3 nights in Gratz, got lost a little, could gear down or hike our bikes when needed, and everyone was still speaking at the end, life was good.

I can hardly wait until our next trip. I am thinking Nova Scotia, do they have lobsters?? Definitely will take my touring bike so I can really gear down and get dirty.

Take care.
